

## **TAHOE CITY PUBLIC UTILITY DISTRICT Job Description**

**Job Title:** Utilities Operations Specialist II  
**Department:** Utilities  
**Supervised By:** Utilities Superintendent  
**FLSA Status:** Non-Exempt  
**Revised as of:** January 2015

### **JOB SUMMARY**

To perform a variety of semi-skilled work in the preventive maintenance, repair, replacement, monitoring, and operation of the District's water and wastewater systems.

### **DISTINGUISHING CHARACTERISTICS**

The Utilities Operations Specialist II is the first-journey level classification in the Utilities Operations Specialist series. The Utilities Operations Specialist II is distinguished from the Utilities Operations Specialist I by the attainment of higher-level certification(s) and performance of more complex tasks. The Utilities Operations Specialist II is distinguished from the Utilities Operations Specialist III by the latter's higher-level certification and a greater amount of on-the-job experience. Progression into the Utilities Operations Specialist II level job class is based on the employee's attainment of the qualification standards of the II level, an ability to perform the full scope of the work and meet performance expectations, and the business need for positions at the II level.

### **SUPERVISION RECEIVED AND EXERCISED**

Receives general supervision from the Utilities Superintendent; and technical and functional supervision from a Senior Utilities Operations Specialist.

### **ESSENTIAL FUNCTIONS**

The duties listed are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to the position.

- Perform a variety of semi-skilled to skilled maintenance on the District's water and wastewater systems; perform related support tasks and manual labor in the accomplishment of assigned projects as necessary.
- Replace, repair, operate and maintain sewer lines, manholes, water lines, pumping stations, wells, water tanks, water treatment plant, booster stations, odor control stations, fire hydrants and other essential parts of the District's water and wastewater systems.

- Respond to customer requests, concerns and complaints regarding the District's water and wastewater systems; act as a resource in providing requested information and/or directing inquiries to appropriate sources.
- Perform plumbing, painting, carpentry and minor electrical tasks in the maintenance and repair of the District's water and wastewater systems.
- Operate radio-based telemetry systems and a variety of electronic devices to monitor and control the operation of the District's water and wastewater systems.
- Operate water treatment plant and related equipment including daily checks, accurate and thorough recordkeeping, visual inspections, remote inspections via telemetry, and basic maintenance operations.
- Monitor and adjust chlorine levels in compliance with public health regulations; distribute and order chlorine as needed to meet required levels.
- Operate a wide range of vehicles and equipment necessary to monitor, maintain and repair the District's water and wastewater systems such as, but not limited to, Vactor truck, television inspection equipment, backhoe, excavator, dump truck, boom truck, cut-off saw and hydraulic tools.
- Inspect and monitor water meters; record readings of gauges, meters and charts; collect water samples and record data to monitor water quality.
- Perform maintenance and repair in a variety of weather conditions and under a variety of physical demands in compliance with established safety procedures and practices.
- Respond to emergency calls on weekends, holidays and evenings and be available for standby duty as assigned and necessary.
- Maintain regular attendance and adhere to prescribed work schedule to conduct job responsibilities.
- Establish and maintain effective working relationships with co-workers and all others contacted in the performance of assigned duties.
- Utilize appropriate safety procedures and practices for assigned duties.
- Work safely and cooperatively with others.

## **ADDITIONAL DUTIES AND RESPONSIBILITIES**

- Perform all other duties as assigned.
